

## Education

---

PhD	Stanford University	Aeronautical and Astronautical Engineering	2020
	<i>Co-advisors:</i>	<i>Gianluca Iaccarino and Art B. Owen</i>	
MS	Stanford University	Aeronautical and Astronautical Engineering	2018
BS	Olin College of Engineering	Mechanical Engineering	2014

## PhD Thesis

---

### “Precision Margin: First-Principles Margins for Aircraft Design Under Uncertainty”

Competitive aircraft design walks a fine line, balancing weight reduction with aircraft safety. Design tends to lean conservative, with cascaded margins to address uncertainties. This thesis introduces design margins that *provably* yield minimal weight penalties at desired levels of safety. Comparisons against industry standards, tractable approximations, and ramifications for both conceptual and detailed design are considered.

## Grants and Fellowships

---

Source	State	Size	
Towards Data-Capable Engineers with a Variability-Capable Mindset <i>NSF Engineering Research Initiation Award Number 2138463</i>	Awarded	\$148,189	2022
Building and Sustaining a Diverse Academic Community in the NE US <i>Stanford Alumni Association</i>	Complete	\$5,370	2021
Improving User Understanding of the Catalyst Game <i>Grant from Toyota Research Institute to fund usability study</i>	Complete	~\$20,000	2021
Integrated Project Fund <i>Grant to develop TA training workshop, Olin internal</i>	Complete	~\$2,530	2021
Diversifying Academia, Recruiting Excellence (DARE) Fellowship <i>Competitive fellowship for promising faculty candidates, Stanford internal</i>	Complete	~\$116,000	2018
NSF Graduate Research Fellowship	Complete	~\$300,000	2015

## Honors and Awards

---

Patricia Cross Future Leaders Award <i>Competitive award for graduate students with promise as future leaders of higher education; administered by the Association of American Colleges &amp; Universities</i>	2020
Stanford MECON Oral Presentation award, 1st place <i>Mechanical Engineering Department-sponsored speaker competition</i>	2017
AIAA Jefferson Goblet Best Student Paper <i>Highest honor for student papers at AIAA SciTech annual conference</i>	2017

### Reviewing

I am a reviewer for the following journals:

- [Nature Computational Science](#)
- [Progress in Materials Science](#)
- [American Institute of Aeronautics and Astronautics Journal](#)
- [Physics of Fluids](#)

### Teaching Experience

---

#### Course Instruction

Probabilistic Design Optimization, (ENGR 3299) Olin <i>Teaching a unique undergraduate course on the fundamentals of optimization and probability for design: multi-objective, constrained optimization, copula probability modeling, Monte Carlo and FORM approximation.</i>	Spring
Quantitative Engineering Analysis, (ENGR 2005) Olin <i>Teaching a flipped, studio-based class on engineering analysis fundamentals: linear algebra, multivariable calculus, statics, optimization.</i>	Spring
Data Science, (MTH 2131) Olin <i>Teaching a flipped, studio-based class on data fundamentals: extract-transform-load operations, exploratory data analysis (EDA), inferential statistics, regression analysis.</i> <a href="https://github.com/zdelrosario/data-science-curriculum">https://github.com/zdelrosario/data-science-curriculum</a>	Fall
Modeling and Simulation of the Physical World, (MTH 1111) Olin <i>Teaching a studio-based class on scientific modeling. Students learn how to build models at multiple levels of abstraction, anchor those models to scientific questions, and implement those models in software. Students also practice working in teams and communicating scientific conclusions.</i>	Fall
Summer Data Science, Olin <i>Taught a five-week summer course for Olin alumni. Designed open-source self-paced curriculum, reinforced with team-based data challenges. Created remote learning environment around team cohorts using Discord.</i> <a href="https://github.com/zdelrosario/data-science-curriculum">https://github.com/zdelrosario/data-science-curriculum</a>	Summer 2020
Uncertainty Quantification, (ME 470) Stanford <i>Designed, implemented, and delivered graduate-level elective course for 9 advanced students. Taught using a mixture of lecture and evidence-based methods.</i>	Spring 2019

**Teaching Competencies**

Engineering Fluid Dynamics, Solid Mechanics, Aerodynamics, Human-centered Design  
Statistics Probability, Estimation, Design of (Computer) Experiments, Regression, EDA  
Mathematics Linear Algebra, Ordinary/Partial Differential Equations, Optimization  
Computing Python (Numpy/Scipy, Pandas, Matplotlib), R (Tidyverse)

## Academic Workshops

---

Data Science for Engineers, (Olin College)	2022
<i>Ran a 6-week professional development course for practicing engineers. Fifteen participants joined the course; five completed self-directed projects. Funded by NSF ERI grant.</i>	
<a href="https://zdelrosario.github.io/evc-course/frontmatter/home.html">https://zdelrosario.github.io/evc-course/frontmatter/home.html</a>	
Materials Informatics Workshop, (Olin College) Wellesley College	2022
<i>Adapted my MI Workshop materials for an undergraduate audience. Offered at Wellesley College in the Spring of 2022.</i>	
<a href="https://zdelrosario.github.io/mi101/intro.html">https://zdelrosario.github.io/mi101/intro.html</a>	
Materials Informatics Workshop, (Olin College) Georgia Tech	2021
<i>Designing and facilitating an annual four-day workshop on materials informatics at Georgia Tech, sponsored by the Institute for Materials. Approximately 30 participants paid to attend the 2021 offering.</i>	
<a href="https://zdelrosario.github.io/mi101/intro.html">https://zdelrosario.github.io/mi101/intro.html</a>	
Qualitative Data Workshop, (Stanford CTL) SABER WEST	2020
<i>Co-designed and facilitated a short workshop on qualitative data coding methods (verbal analysis) for ~ 30 participants.</i>	
<a href="https://sites.google.com/uci.edu/saberwest2020/program?authuser=0">https://sites.google.com/uci.edu/saberwest2020/program?authuser=0</a>	
Materials Informatics Workshop, (Citrine Informatics) Georgia Tech	2019
<i>Designed and facilitated a two-day workshop on materials informatics at Georgia Tech, sponsored by the Institute for Materials. Led a team of 7 TA's to teach ~ 15 participants.</i>	
<a href="https://citrineinformatics.github.io/ga-tech-workshop/">https://citrineinformatics.github.io/ga-tech-workshop/</a>	
Teacher Workshops, (SeeME) Stanford	2019
<i>Developed and delivered workshops on the fundamentals of teaching, including lessons on learning goals and The 5E Model. Ran workshops for audiences of ~ 10.</i>	
Groupwork Workshop, (VPTL Consultant) Stanford	2018-2019
<i>Co-developed and delivered workshop on evidence-based best-practices for groupwork in the classroom. Digested, summarized, and applied education literature, designed hands-on activities, co-facilitated workshop on several occasions for audiences of ~ 16.</i>	
<b>External Outreach</b>	
Teacher Development Workshop, (Individual) Olin	2022
<i>Interactive lesson on data visualization for the teaching staff at High Rock Middle School in Needham, MA.</i>	
Intro to Exploratory Data Analysis, (SeeME) Stanford	2016
<i>Introductory hands-on class to introduce students to principles of visualization, exploring data, understanding trends, and basic causal reasoning.</i>	
<a href="https://github.com/zdelrosario/teaching-eda">https://github.com/zdelrosario/teaching-eda</a>	
“What the heck is engineering?”, (Splash) Stanford	2014-2015
<i>Introductory discussion-based class meant to introduce middle- and high-school aged students to engineering as a profession.</i>	

## Mentoring

PhD Defense Examiner	Institution, Department	Year
Gitanjali Bhattacharjee	Stanford University, Civil and Environmental Engineering	2021
Mentee(s)	Project advised	
Qingmu (Josh) Deng	Co-advised with Rebecca Belisle (Wellesley); helped student develop a sequential design of experiment (DOE) pipeline using gaussian processes with well-calibrated uncertainties. Student used pipeline to guide experimental synthesis of perovskites for tandem solar cells. Student presented work at MRS 2021 Conference.	2020-2021
Riya Aggarwal, Caitlin Coffey, Arwen Sadler	Undergraduate research team conducted interviews and thematic analysis to study online studio-based courses. Published results in peer-reviewed conference paper (ASEE Annual Conference).	2020-2021
Gitanjali Bhattacharjee	Former student (ME 470) used sensitivity analysis to study transit network reliability and bridge retrofitting. Focused on modeling decision processes and uncertainty arising from bridge fragility. Student project led to peer-reviewed publication (Bhattacharjee and Baker 2021; <i>Structure and Infrastructure Engineering</i> ).	2019
Sita Syal	Former student (ME 470) performed soft cost analysis for solar farm leasing. Focused on modeling cost uncertainties and advised student on how to strategically leverage her NREL contacts in her research agenda.	2019
Mark Benjamin	Rotation student investigated reliability-based design optimization strategies, focusing on comparing various density-matching approaches.	2018
Writing Consultee	Outcome	
Paul Nadan	NASA NSTGRO; CMU, Robotics Institute	2020
Cindy Nguyen	NSF GRFP; Stanford, Electrical Engineering	2019
Larissa Little	NDSEG; Harvard, Materials Science	2018
Mason del Rosario	NSF GRFP Honorable Mention; UC Davis, Electrical Engineering	2018
Rongfei Lu	Stanford, Aeronautics and Astronautics	2018
Emma (Zeyan) Xu	NSF GRFP; Columbia, Material Science	2017

## Service and Leadership

---

<p><b>Selection Committee</b> (AAC&amp;U)  <i>Will help select the recipients of the 2022 Patricia Cross Future Leaders award, administered by the AAC&amp;U.</i></p>	Fall 2021
<p><b>TA Training Workshop</b> (Olin College)  <i>Co-designing and teaching a workshop on the fundamentals of teaching for TA's. Focused on active learning, problem solving, and the affective dimensions of teaching.</i></p>	2021 – Present
<p><b>Racial Justice Discussion Organizer</b> (Olin College)  <i>Co-organized a 10-week series of discussions about racial justice at Olin College. Designed a <a href="#">session</a> around BlackInTheIvory, highlighting Black voices in the academy. Facilitated difficult conversations about race in higher education.</i></p>	Summer 2020
<p><b>Search Committee Member</b> (Stanford Career Center, BEAM)  <i>Served on executive hiring committee for Stanford's career center (BEAM). Interviewed BEAM staff to gain perspective; advocated for evidence-based structured interview process to reduce bias; co-wrote search criteria and rubric.</i></p>	2020
<p><b>Co-Chair</b> (ASEE, Task Force on Graduate Student Affairs)  <i>Appointed by the president of the American Society for Engineering Education (ASEE) national organization to co-chair a task force studying how our professional society can serve graduate students.</i></p>	2019-Present
<p><b>President</b> (American Society for Engineering Education, Stanford Chapter)  <i>Led and served on a 5-person organizing team. Organized a seminar sequence with internal and external speakers. Directed a Colloquium event attended by 70 persons, featuring workshops on "The Fundamentals of Teaching."</i></p>	2018-2019
<p><b>Founder and Director of Curriculum</b> (SeeME)  <i>Co-founded Stanford Mechanical Engineering's student-run research outreach program SeeME. Developed and delivered workshops to train grad student instructors. Wrote grants to support operations and conference travel. Served as program leader and interfaced with the Department Chair.</i></p>	2017-2020
<p><b>Financial Officer</b> (American Society for Engineering Education, Stanford Chapter)  <i>Served on 4-person organizing team. Wrote and won grants to fund speaker series and Colloquium. Point person on organizing seminar sequence.</i></p>	2017-2018
<p><b>Chair of Teacher Development</b> (Stanford Splash)  <i>Served on 20-person organizing team serving thousands of high school students. Owned our teacher training program; co-facilitated workshops to introduce Stanford students to the basics of teaching. Enhanced teacher evaluations by introducing new survey system.</i></p>	2014-2016

## Employment

---

- Assistant Professor** (Olin College) September 2022-Present  
*Teaching first-year and upper-division courses on engineering and statistics. Conducting collaborative research on data science applied to materials development. Mentoring students in research projects.*
- Visiting Assistant Professor** (Olin College) September 2020-December 2021  
**Statistical Consultant** (Citrine Informatics) October 2019-December 2021  
*Supporting government-funded research projects with numerical and graphical statistical analyses. Co-author on resulting publications.*
- Instructional Designer and Data Scientist** (Citrine Informatics) Summer 2019  
*Developed and delivered 2-day workshop at Georgia Tech on Materials Informatics. Developed novel strategies for active learning in support of materials discovery.*
- Teaching Consultant** (Stanford VPTL) 2018-2020  
*Professional teaching consultant, employed by the office of the Vice Provost for Teaching and Learning (VPTL). Used training in pedagogy and mentorship to carry out consultations with fellow graduate students. Co-facilitated various workshops, and co-developed novel workshop material on Groupwork.*
- Research intern** (Northrop Grumman Corporation) Summer 2017  
*Developed statistical methods to identify anomalies in time series data. Supported exoplanet detection research team.*
